- 生圖使用的模型：gsdf/Counterfeit-V2.5

期末專案說明

- 參考 Genius Warlock 小說設定，建立一個會參考該世界設定生圖的網頁
 - 該小說是魔法世界為背景的小說
- 先參考 Gemini 總結出的關件字
 - Fantasy World, Magic, Wizards, Warlocks, Magical Academies, Social Hierarchy
- 將 Gemini 總結出的關件字即我本身對小說的理解作為 enhance text
- enhance text: "comic, comics, anime, Storyboard, 19th century, the Age of Magic and Industry, Genius Warlock, The forests were cleared, railroads were laid, airships were in the sky, and cars were circulating in the streets. Fantasy World, Magic, Wizards, Warlocks, Magical Academies, Social Hierarchy, Pursuit of Power, Innovative Magic, Established Traditions, Protagonist's Rise, Exceptional Aptitude, Overcoming Adversity"
- 用這些設定去生成圖片

加上小說背景生成的圖片

- prompt: a girl

- prompt: a cat

結論

- 在給予小說設定的（魔法世界）的關鍵字之後，只要給予簡短的 prompt，就可以產出魔法世界背景的圖
